

# ADDITIVATO

**ADDITIVATO** is a low thermicity transparent polyethylene film for seasonal covering of greenhouses & tunnels.

Upon request, the additives can be based on Nickel to offer greater resistance to pesticides containing Sulfur and Chlorine (ADDITIVATO VERDE).

Available in duration class: A, B, C (EN 13206)

Custom made available.

Standard dimensions of **ADDITIVATO-B** available in stock:

Thickness mm	Film Width m	Film Length m	Roll Weight kg	Area per roll m <sup>2</sup>	Folding	Roll Width m	Packaging <i>n° rolls per pallet</i>
0,18	2,0	220	76,2	440	flat	2,00	14
0,18	3,0	150	77,0	450	1 time-fold	1,50	14
