

OOBAR

OOBAR is the evolution of the Silopack film.

Its excellent oxygen barrier properties allow a drastic reduction of the aerobic phase that is created in the silage, allowing a high improvement of the quality of the stored product.

As for Silopack, the OOBAR film must be combined with a traditional covering film such as MULTISILO or OBELIX.

Standard in stock:

Thickness	Film Width	Film Length	Roll Weight	Area per roll	Folding	Roll Width	Packaging
mm	m	m	kg	m²		m	n° rolls per pallet
