

MULTIBIO

MULTIBIO BLACK is a biodegradable mulching film that offers an excellent herbicidal effect and that can be digested in the field thanks to the 'OK certification biodegradable soil '(certificate n. S0818).

Thickness and dimension are customizable and it can be requested in the perforated version.

Standard in stock:

Thickness	Film Width	Film Length	Roll Weight	Roll Area	Film Folding	Roll Width	Packing
μm	cm	m	kg	m^2		m	n° rolls per pallet
15	80	2.900	50,0	2.320	Flat	0,80	16
15	100	2.300	50,0	2.300	Flat	1,00	14
15	120	1.900	50,0	2.280	Flat	1,20	14
15	140	1.600	50,0	2.240	Flat	1,40	14

MULTIBIO WHITE-BLACK is a biodegradable film for mulching that offers an excellent herbicidal effect and is particularly suitable for use in hot and sunny months. The white side, facing the sun, limits the overheating of the soil.

Like the Multibio Black, it can be digested in the field and it can be produced in customized thicknesses and sizes, even in the perforated version.

Standard in stock:

Thickness	Film Width	Film Length	Roll Weight	Roll Area	Film Folding	Roll Width	Packing
μm	cm	m	kg	m^2		m	n° rolls per pallet
18	120	1.600	50,0	1.920	Flat	1,20	14
18	140	1.330	50,0	1862	Flat	1,40	14
